Reporting Period January 4, 2022 Through February 4, 2022

Vessel metrics.

71	Number of vessels in anchorage excluding transient vessels
1	Number of transient vessels in anchorage
4	Number of floating homes
76	Total Number of vessels, transient vessels and floating homes as of January 4, 2022
64	Number of vessels inside the Eel Grass Protection zone

Significant events:

A Tsunami event occurred on January 15, 2022 producing minor wave action and extreme tidal ranges and periods for the morning and afternoon of the 15th. While no significant damage occurred during this event, the event proved the effective communication and participation staff has within the Marin County EOC. Word of the Tsunami was received by staff and immediate attempts were made to contact anchor out vessels via text message and staff coordinated with Marin County Fire and Sheriffs deputies for waterborne support and observation.

One new vessel was brought the anchorage and was subsequently surrendered at the Army Corps of Engineers Debris yard and disposed of.

Staff has coordinated with Marin County Sherriff for increased joint patrols of the anchorage. Objective with the coordination is for at minimum two joint patrols per week. Efforts are ongoing.
