

RICHARDSON'S BAY REGIONAL AGENCY

STAFF REPORT

For the meeting of March 10, 2022

To: Board of Directors
From: Steve McGrath, Interim Executive Director
Subject: Return to in-person meetings

STAFF RECOMMENDATION:

Staff recommends that this Board continue to meet virtually until the Marin County case rate exhibits a consistent downward trend over time and the likelihood of a return to virtual meetings is greatly reduced.

SUMMARY:

In September 2021, Governor Newsom signed [AB-361](#). The legislation, which took effect immediately, provides that local government bodies subject to the Brown Act can continue to use video and/or teleconferencing through December 31, 2023 in the manner that Governor Newsom's executive orders authorized during the COVID-19 pandemic. A public entity can use AB 361's provisions under certain conditions, including when state or local officials have recommended social distancing during a proclaimed state of emergency.

In accordance with the Center for Disease Control (CDC), the Director of Health & Human Services has recommended continued social distancing and wearing of masks to enhance safety at public meetings. At the time of preparation of this report, Marin County's case rate stood at 7.7 per 100,000 residents (17.3 unvaccinated, 7.69 vaccinated and boosted, 6.63 vaccinated and not boosted), an increase of 1.1 (15.2%) since the Board meeting of February 10, 2022, and of 30.5% since November 14, 2021. Regardless, this is a dramatic decrease since the high on January 10, 2022 of 162.3.

The proposed resolution would provide the RBRA Board of Directors with the option, but not the requirement, to continue to use video- and/or teleconferencing when appropriate for the next thirty days and while the state proclamation of emergency remains in place.

Regardless, staff will bring forward a discussion item at the April 14, 2022 meeting about a potential return to in person meetings.
