Subject: Harbormaster's Report

Reporting Period Aug 30 – Oct 6, 2022

Vessel metrics.

59	Number of vessels in anchorage excluding transient vessels
2	Number of transient vessels in anchorage
4	Number of floating homes
65	Total Number of vessels, transient vessels and floating homes as of June 13, 2022
47	Number of vessels inside the Eel Grass Protection zone

Significant events:

Two new vessels arrived in the anchorage this period both of which were subsequently removed.

Both new vessels to the anchorage were deposited there by third party individuals. One vessel was as a result of a Coast Guard Search and rescue case, and the other was mistakenly provided to an anchor out.

The legitimate owners of both vessels were located by RBRA Harbormaster. One vessel has been surrendered to the RBRA as a voluntary turn in and the legitimate owner of the second vessel retrieved his vessel from the anchorage and removed it.

A third vessel was removed from the anchorage as marine debris.

The contract with Marin Link was recently finalized for the full, board authorized amount and progress continues on the anchorage under the vessel buy back program.
